

## Foxboro DCS Training

Trident Automation offers training for **Foxboro DCS** on an on-demand basis. This 5-day course takes place at our corporate office in Kimberly, WI and is tailored to fit the hardware, software and architecture in place at your plant. If interested in being put on the contact list for Foxboro Training, please email [msjoberg@tridentautomation.com](mailto:msjoberg@tridentautomation.com).

### Covered Topics:

- Creating Application and Galaxy Backups
- Mesh Network Architecture - Station Architecture
- FBM Types
- CP Types
- System Manager - Station, Controller, and Module Diagnosis
- IDE Environment Overview
- Template Location and Standard Block Library
- Configuring Standard Blocks
- Graphics
- Adding/Configure new I/O modules & channels
- Manuals and Documentation Overview
- Advanced Calculator Block (CALCA) Language and Use
- Deployment of New Code & Hardware Changes

### Registration:

The fee for this course is \$2,800.00 per person. \* +

A Purchase Order number, along with full payment, is required to reserve your seat(s) when the class is scheduled.

### Cancellation:

Two (2) students are required for the course to take place. Once we receive enough interest, we will schedule the course with the interested individuals.

Trident Automation reserves the right to reschedule or cancel the course if the minimum number of students is not met, unless special arrangements are made in advance. If Trident Automation cancels a course with no reschedule date planned; a full refund will be issued.

\* Customers with a Support Agreement may receive 10% off the cost of training for the duration of their specified agreement.

+ If purchasing the training course via Trident Automation's online store with a credit card, there will be an additional convenience fee added to the cost of the course per person. Please contact Megan Sjoberg at [msjoberg@tridentautomation.com](mailto:msjoberg@tridentautomation.com) for more information on how to purchase via online.
